HUMAN BODY as a SPECTROSCOPE

- **ABSORPTION** = 4 fundamental interactions
- **EMISSION** = 4 fundamental atoms (C.H.O.N)
 4 nucléotides (A.G.T.C)
 4 Pigments
 4 neurotransmitters
- **RESONANT CAVITY** (amplifier)
- **HARMONIC OSCILLATOR MANIFOLD** -> Informal mapping of cell microtubules to cardiovascular networks.

VASCULAR RESONANCE is a REAL TIME IN VIVO BIOCHEMICAL BIOASSAY

6 zones of vascular longitudinal resonance constitute a spherical dynamic system

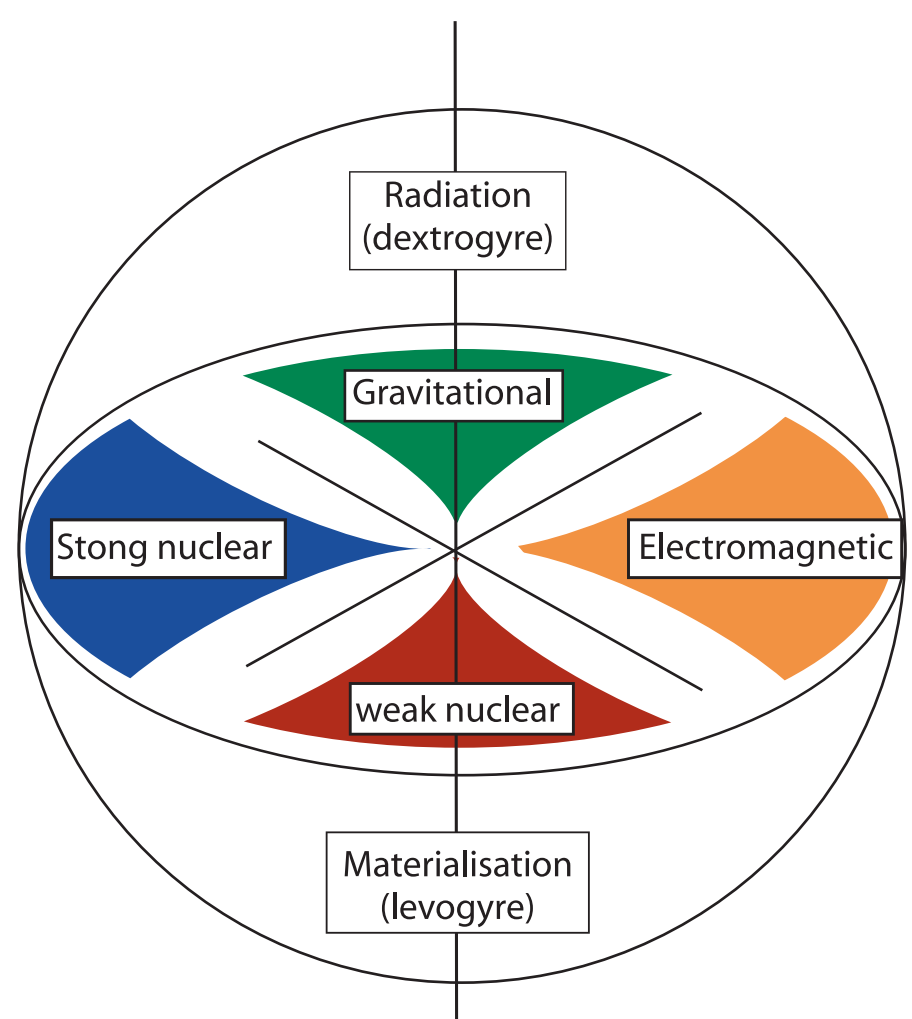

VERTICAL AXIS OF ROTATION
 • 2 ulnar arteries

EQUATORIAL PLANE
 • 2 radial arteries
 • 2 pollicis arteries

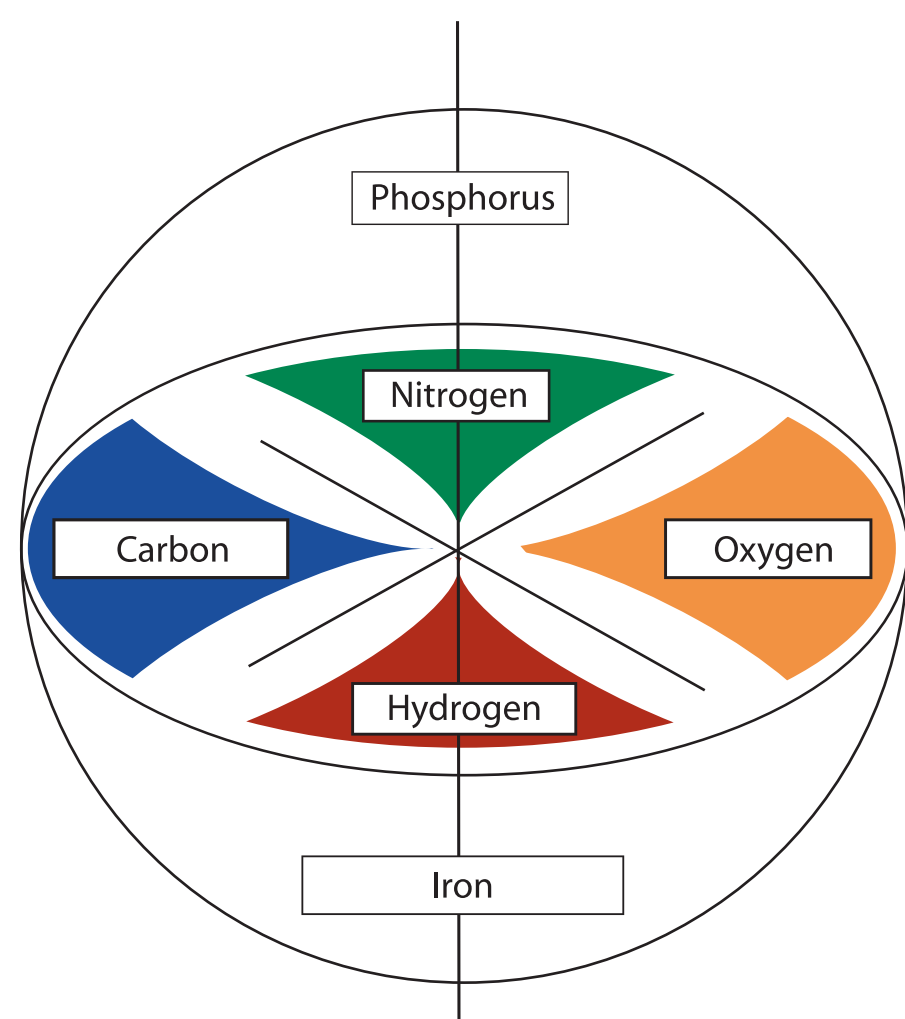

The 2 radial arteries resonate to ecto-endoderm or explicate order
 The 2 pollicis arteries resonate to mesoderm or implicate order

- **ECTODERM = ELECTRO-MAGNETIC**
 - **ENDODERM = WEAK NUCLEAR**
 - **MESODERM INTRA-EMBRYO = STRONG NUCLEAR**
 - **MESODERM EXTRA-EMBRYO = GRAVITATIONAL**
- PARALLELISM ONTOGENESIS = COSMOGENESIS**

SEMANTIC RESONANCE IS THE COMMON AXIS TO MATTER AND ANTIMATTER

VIBRATORY SPECTRUM MATTER/ANTIMATTER (AURA)

- **MESODERM EXTRA-EMBRYO or CHORION** is wrapping all the embryo and resonates like Morula or undifferentiated stage.
- The **UMBILICAL CORD** connects the rhythm of mother's universe with embryo cardiovascular Mesoderm which has its own rhythm.
- **MORULA or/and MESODERM EXTRA-EMBRYO** resonates to:
 Gravitation
 Protopsyichism
 Cosmic consciousness, Clear Light, NDE
 Non local Mind
 Ultimate reality
 Wave Function
 Degeneracy
 Da - Sein
- **ENDODERM** resonates to wave function collapse or localization

VASCULAR SEMANTIC RESONANCE

- A mesodermic phenomenon, bypassing the neuro-ectodermic sensory apparatus.
- Detects directly the meaning of geometric curves, ideograms and symbols.
- Resonate to concepts.
- Shows that matter resonates with quanta and antimatter with qualia.
- Matter (electron) and Antimatter (positron) are «Complex Conjugates».
- Each fundamental matter interaction communicates with a specific antimatter layer or kosha of Aura.

"Vascular Semantic Resonance showing identical vibratory spectra between Morula, Gravitation, Protopsyichism and Wave Function, suggests a common function of Potentialisation."

"Collapse of Wave Function or Materialization belongs to Endoderm Liver Protein formation and Transcriptase."

"Quanta are associated with matter transverse vibrations and Qualia with Antimatter longitudinal vibrations."

"Semantic is the common vertical axis of Matter quanta and Antimatter qualia."
